Vyaapar Suraksha Assistant: Demo Test Script

HDFC ERGO pilot on Perfox.ai, prepared by Skillmine · Demo page: **hdfc-vs-demo.skillmine-hr-api.workers.dev** · All customer data is made up for the demo.

1. Before you start

1. Perfox Studio: the agent **HDFC-VS Customer Service** shows **Active**, and the workspace has credits.
2. Open the demo page and click **Reset demo** (top right). The chat opens with the greeting.
3. Keep the window wide at 100% zoom, so the page and the chat are side by side.
4. Click **Reset demo** before every new customer or new business example. Reset clears the chat and every claim on the Claims Desk, and brings back the same made-up customers.
5. Type each message **one at a time** and wait for the reply (about 3 to 10 seconds).

The page at a glance

TAB	WHAT IT IS FOR
Policy Guide	Named Perils vs All Risk, and the 21 sections. *Read in the policy* opens HDFC ERGO's own PDF at the exact sentence, highlighted.
Apply	The proposal form, following HDFC ERGO's form. Download it filled in as a PDF.
Try as a customer	The made-up policyholders, with policy number, mobile and OTP to type in the chat.
HDFC ERGO Claims Desk	What HDFC ERGO's team would see: registered claims, their status, and call-back requests.

Demo customers

Ramesh Jain
Jewellery shop, Jaipur
Policy `VS-2026-10001`
Mobile `9829000001`
OTP `123456`
Active · All Risk

Sunita Sharma
Kirana store, Patna
Policy `VS-2026-10002`
Mobile `9835000002`
OTP `123456`
Active · Named Perils

Imran Khan
Electronics shop, Pune
Policy `VS-2025-10003`
Mobile `9822000003`
OTP `123456`
Expired 30 Sep 2026

Priya Nair
New bakery, Kochi
No policy yet
Wants to buy

> No SMS is really sent. In the demo the OTP is always **123456**. In real use, HDFC ERGO's system would send a random code to the mobile registered on the policy.

2. Simple questions about the policy

For someone who just wants to understand the policy. No policy number or OTP should be asked for. Reset before starting.

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
1	`What is this policy?`	Simple explanation: one package policy for a business, 21 sections, Section I compulsory, the rest optional.	

2	`What's the difference between Named Perils and All Risk?`	Named Perils: only the listed dangers (fire, lightning, riot…). All Risk: any sudden accident unless excluded.	
3	`Is flood covered?`	Under Named Perils only if storm and flood is added; under All Risk unless excluded. Source page 4. The Source line is a link that opens the page.	
4	`My shop has stock worth 10 lakh, what happens if it catches fire?`	Fire is covered under Section I, in plain words, with Source and the disclaimer. It is a question, so no OTP or claim steps.	
5	`Is cash in my shop covered if stolen?`	Section XI Money: cash on the premises, in the safe, or on the way to and from the bank.	
6	`Is jewellery stock covered under burglary?`	Excluded unless specifically insured, Policy Wordings Section II page 26. The Policy Guide highlights Section II.	
7	`What is sum insured?`	Plain meaning: the most the policy will pay.	
8	`How do I make a claim?`	General steps: tell HDFC ERGO immediately, police or fire brigade report where needed, keep evidence, claim form within 30 days.	

> *"Every answer comes only from HDFC ERGO's four policy documents, with the page, and the link opens the exact place in the official PDF."*

3. Which sections fit my business

Click **Reset demo** before each business.

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
9	`I run a jewellery shop, which sections do I need?`	Section I mandatory, the rest optional; related sections one line each, with the jewellery notes for Sections I and II; ends with "please speak to an HDFC ERGO representative". It never recommends.	
10	`I run a medical store, which sections apply?` (after Reset)	A list for a medical store only, with no jewellery notes.	

4. Hinglish and Hindi

The assistant replies in the customer's language. Reset before each.

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
11	`Mera kirana store hai, fire se stock jal gaya toh kya cover hoga?`	Replies in Hinglish (English letters): fire cover under Section I, with its exclusions.	
12	`Mere kapde ki dukaan hai, kaunsa insurance chahiye?`	Hinglish; Section I mandatory and related sections; no recommending.	

13	`मेरी दुकान में चोरी हो जाए तो क्या मिलेगा?`	Replies in Hindi (Devanagari) about Section II, Burglary.	

5. Knows its limits

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
14	`Which sections should I buy?`	Does not recommend; explains and says to speak to an HDFC ERGO representative.	
15	`How much will the premium be?`	Gives no price; HDFC ERGO decides it; gives the contacts.	
16	`My PAN is ABCDE1234F`	"Please don't share these here. Submit them directly to HDFC ERGO with your form."	
17	`Is my car covered?`	This is a business package policy; gives HDFC ERGO's contacts.	

6. Applying for the policy (Priya, new customer)

Path A: fill it here

#	DO THIS	A GOOD RESULT	✓
18	Reset, then type `I'm opening a bakery. What insurance do I need?`	Plain explanation for a bakery, no OTP, no claim steps.	
19	Type `I want to apply for this policy`	The explainer (Section I, Named Perils vs All Risk, optional sections, add-ons), ending with "1. Fill it here · 2. Download the blank form".	
20	Type `1`	The page switches to the **Apply** tab.	
21	Fill the form: your details → Section I (choose **Named Perils**, tick **storm and flood**; click *What's this?* on any item) → premises → add-ons → tick **II Burglary** and **XI Money** (their questions appear) → nominee → declaration.	Only the chosen sections' questions appear. *What's this?* opens the policy at that item.	
22	Click **Review my proposal**, then **Download filled proposal form**.	HDFC ERGO's own proposal PDF with the answers written in, plus an annexure page.	
23	Click **Send to the assistant**.	A one-line summary, then "submit with PAN, KYC and bank details to HDFC ERGO; this is not a policy or a quote".	

Path B: blank form

#	DO THIS	A GOOD RESULT	✓
24	Reset, type `I want to apply for this policy`, then `2`	A link to HDFC ERGO's blank proposal form PDF.	

> Filling the form gives Priya a filled PDF only. Nothing is saved and no policy number is created: in real life HDFC ERGO issues one after accepting the proposal and receiving the premium.

7. Something happened: claims

The customer describes what happened in their own words. The assistant checks safety, verifies the policy with an OTP, and our rules say **likely covered** or **likely not covered**. The assistant explains, and **HDFC ERGO's surveyor makes the final decision**.

> Tip: give the policy number and mobile **in one message**, as written below.

Claim 1: Ramesh, likely covered Reset first

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
25	`Someone broke into my shop last night and took jewellery`	Asks if everyone is safe (police 112) and if you have a policy.	
26	`Yes, everyone is safe. My policy is VS-2026-10001, mobile 9829000001`	"OTP sent to the mobile ending 0001."	
27	`123456`	**Likely covered** (jewellery is specifically insured), what to do now, documents (police FIR, claim form within 30 days, photos, bills), then "Shall I register this claim with HDFC ERGO?"	
28	`Yes, please register it`	A claim reference such as **CLM-2026-0412**.	
29	Open **HDFC ERGO Claims Desk**. On Ramesh's card, change **Status** to **Surveyor assigned** (it saves by itself).	The claim card shows Ramesh, the event and Likely covered.	
30	Back in the same chat: `What's my claim status?`	**Surveyor assigned**, and the surveyor will call to fix a visit.	

> *"The customer never needed an insurance word. The rules decide, the assistant explains, and HDFC ERGO's team sees the claim instantly."*

Claim 2: Sunita, likely not covered, in Hinglish Reset first

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
31	`Baarish ka paani dukaan mein aa gaya, saara stock kharab ho gaya`	In Hinglish: is everyone safe, do you have a policy.	
32	`Haan sab safe hain, policy VS-2026-10002, mobile 9835000002`	OTP sent to the mobile ending 0002.	
33	`123456`	**Likely not covered**: under Named Perils, storm and flood need the add-on she didn't take (page 4). Steps and documents, then asks to register.	
34	`Haan, register kar do`	A claim reference. On the Claims Desk the card shows Likely not covered with the reason.	

> *"It is honest about cover, but never stops a customer from reporting a loss."*

Claim 3: Imran, policy expired, asks for a person Reset first

#	TYPE IN THE CHAT	A GOOD ANSWER	✓

35	`There was a fire in my godown, what do I do?`	Safety first: fire brigade 101. Asks if you have a policy.	
36	`Yes, safe. Policy VS-2025-10003, mobile 9822000003`	OTP sent to the mobile ending 0003.	
37	`123456`	**Likely not covered**: the policy ended on 30 Sep 2026, before the fire.	
38	`I want to talk to someone`	Call-back reference **CB-101**; it appears under **Call-back requests** on the Claims Desk.	

Privacy check

#	TYPE IN THE CHAT	A GOOD ANSWER	✓
39	Reset, then `What is my claim status? My policy number is 2345678`	Asks for the registered mobile to verify; the number isn't found, so it gives HDFC ERGO's contacts. It shares nothing without verification.	

8. If something goes wrong

WHAT YOU SEE	WHAT TO DO
The chat gets confused or repeats an earlier answer	Click **Reset demo** and start that example again.
It never asks for the OTP when a policyholder reports a loss	Perfox: the claims integration must be attached to the agent, the latest prompt pasted, and **Activate** clicked.
A claim reference is given but the card is not on the Claims Desk	Wait 4 seconds or click the tab again. If still missing, note it: the claim was not registered.
Asks for the OTP twice	Type `123456` again.
A page number is one off	Use **Previous / Next page** in the document viewer.

9. Close

> *"This is web chat today. The same assistant can run on WhatsApp and phone. With HDFC ERGO's systems it would verify real policies, send real OTPs, and pass claims straight to the claims team."*

All customers, policy numbers, mobiles, OTPs and claims in this demo are made up. Policy content © HDFC ERGO General Insurance Company Limited. Answers are general information; the policy wording is final.
